

SO, WE HAVE TO DESIGN – AND CODE – DEFENSIVELY

Option 2 – fork the logic

```
if (wrapper.supports.scrolling) {  
  wrapper.onScroll(scrollPos => {  
    if (scrollPos > chartThreshold) {  
      Chart.animate();  
    }  
  });  
}  
else {  
  Chart.animate();  
}
```

SHARING IN THE APP

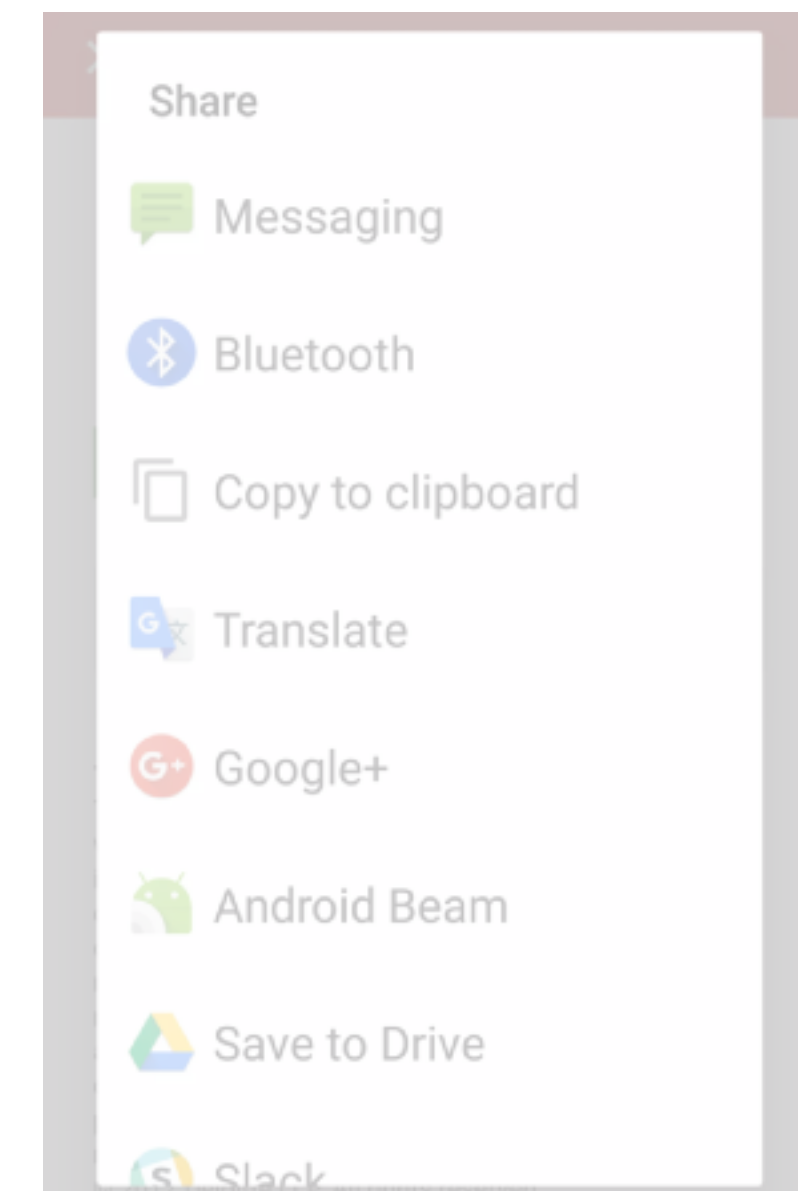

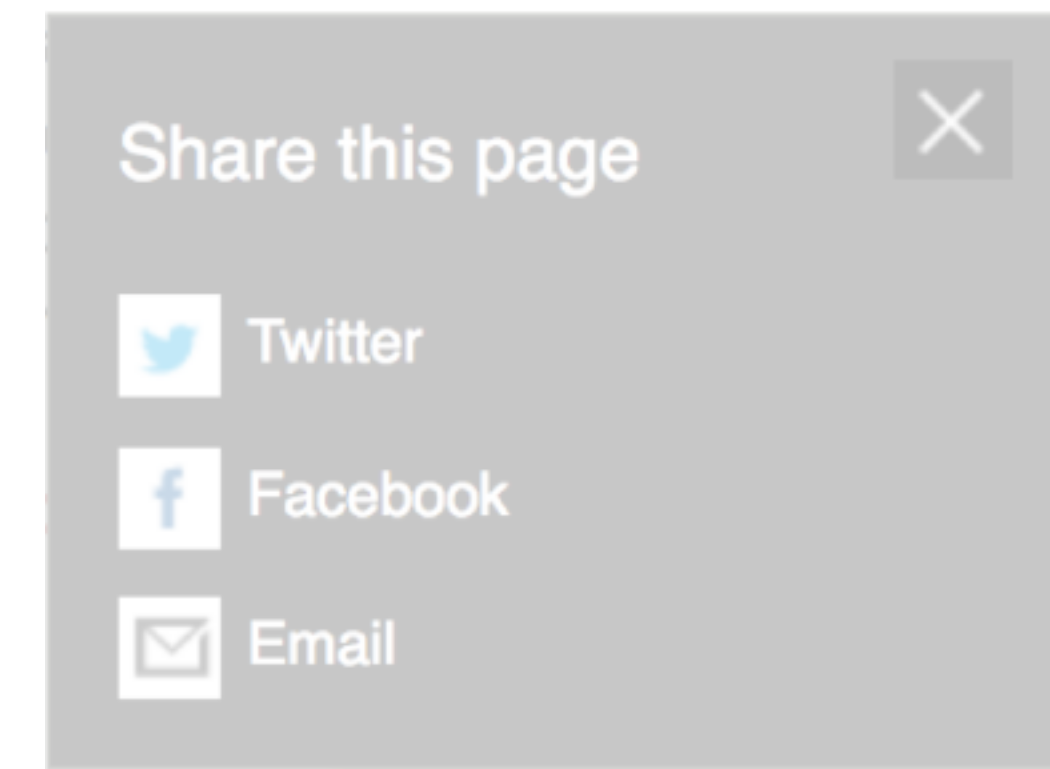

REMEMBER THIS?

IS
NEWS APP?

No - provide
options

Yes - show
native menu

```
if (isNewsApp()) {  
  shareButton.action = 'bbcnewsapp://visualjournalism/share';  
}
```
